

# Mattress Underlay

Product code: USPF3678

Designed for use on an uneven surface, this foam underlay mattress can be used on a slatted, profiling and divan beds underneath an alternating pressure mattress. As the height is just 50mm the underlay keeps the laying surface within the regulation 220mm from the top rail. Easy to clean, removable cover. Supplied with a waterproof and vapour permeable cover as standard.

## Specification
