

Soprano

Ultimate Bariatric Bed

The **Soprano Bariatric Bed** offers a low platform height of just 27cm from the ground level. The easy to use handset features a control lockout for patient safety. Auto-contour allows for effortless positioning that prevents the patient sliding down the bed. In addition, the Soprano Bariatric benefits from an auto-regression function that ensures minimum pressure is placed on the sacrum region when the bed is profiled.

10 button handset control

Auto-regression backrest function

Individually lockable twin castors
