

Viola II

Active Pressure Care Cushion

The Viola II dynamic cushion offers continuous pressure relief and support for seated patients at a **Very High Risk** of developing pressure ulcers. When combined with an Ultimate Healthcare dynamic mattress system the Viola II offers an affordable preventive package around the clock.

Offering high levels of patient comfort and pressure relief the Viola II can support patients up to 220kg and can be used on a range of chairs.

The compact and lightweight power unit features clear and simple controls that allow the Viola II to be easily set-up for individual patient comfort or clinical requirements, while a stretch, waterproof, vapour permeable cover with an integral covered air pipe and enclosed zip maintain high infection control standards.

Features

Features	Benefits
Alternating Cycle	Moulds to patient shape, providing excellent comfort & pressure re-distribution properties
Comfort control	Manual pressure adjustment allows the system to be set-up for optimal performance to suit individual patient comfort or clinical requirements.
Compact and lightweight power unit with clear and simple controls	Ensures that the Viola II is easy to set-up and operate.
Audible and visual alarms	Low pressure and power failure alarms enhance patient safety and ensures peace of mind for nursing staff.
Hanging Brackets	Allows the power unit to be attached to a range of chairs.
Stretch, waterproof, vapour permeable PU cover	Improves patient comfort and maintains skin integrity by reducing shear and friction forces whilst aiding infection control.
Enclosed zip and covered air pipe	Reduces the possibility of fluid ingress to aid infection control.

Technical Specification

Product code:	UPRA2020-2
Risk category:	Very High Risk
Min user weight:	32kg / 5 stone
Max user weight:	220kg / 34 Stone
Cushion Dimensions:	500 x 500 x 110 mm (20 x 20 x 4.3")
Power Unit Dimensions:	275 x 135 x 125 mm
Product weight:	2.3kg Power Unit
Cycle Time:	10 minutes
Supply Voltage:	230v 50Hz
Noise Level:	48db
Cover material:	Polyester PU

Pressure Range:	30 - 70mmHg
Classification:	Class I Type BF
Compliance:	EN 60601-1
Warranty:	1 year
