

Mattress Squab

The mattress squab is designed to be used alongside a single foam mattress on beds with an integral extension system and should be situated at the head end of the bed.

The mattress squab provides an infill for the extended section of the bed and is fitted with a 2-way stretch PU waterproof and vapour permeable cover to reduce shear and friction forces and enhance user comfort.

Features

- Non-turn easy care
- Bespoke sizes available on request
- Optional securing strap available
- 2-way stretch PU waterproof cover
- Increases length of mattress when is bed extended
