

## Carefree Premier

Pressure reducing foam mattress replacement

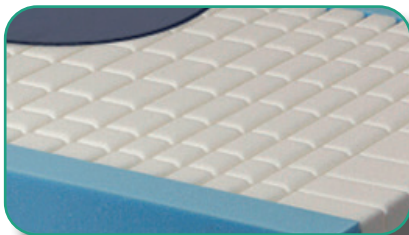

The **Carefree Premier** replaces a standard mattress. It comprises of a castellated foam insert to help provide pressure reduction and features a reinforced base and side wall.

The mattress replacement is ideal for patients considered to be up to a **very high risk** of pressure ulcer development and can be used in a **community and long term care** setting.

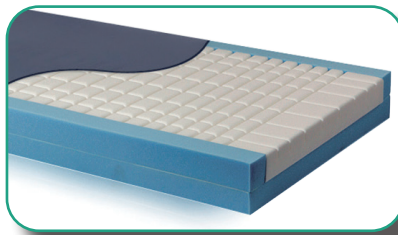

Available in **single** and **double** sizes to provide flexible care options.

### Features & Benefits

#### Castellated foam insert

Offering excellent pressure reduction, comfort and support.

#### Reinforced side walls and base

Offering stability and support whilst assisting patients and their caregivers with transfers.

#### Non-turn

Not requiring turning or rotating significantly minimises manual handling risks.

#### 2-way stretch, waterproof, vapour permeable PU cover

Improving patient comfort and maintaining skin integrity by reducing shear and friction forces.

High frequency welded seams and a fully concealed zip which reduces the possibility of fluid ingress to aid infection control.

A toughened PU base protects the mattress when used on a electric profiling bed.
